WELCOME TO PREMIER FOREST PRODUCTS

Terry Edgell, Nigel Williams and Dilwyn Howells

WHAT WE DO

We specialise in timber importation, processing, engineering, joinery, merchenting and wholesale distribution. With our in-house milling and fabrication facilities, we provide comprehensive timber solutions with quality assurance nationwide and a distribution service second to none.

WHO WE ARE

In 1993 Terry Edgell, Nigel Williams and Dilwyn Howells combined their considerable timber expertise and specialisms to found Premier Forest Products. We're proud to say that 30 years later we're one of the leading, independent timber companies in the UK, operating from multiple locations across the country and employing a skilled workforce of over 350 people.

Premier Forest aims to deliver our customers' vision in timber and to exceed their expectations at every turn - delivering service with confidence, enthusiasm and pride. Our reputation is founded on knowledge, expertise and experience, qualities we value and share.

OUR CUSTOMERS

We serve the wholesale, construction, landscaping and furniture manufacturing sectors including national and regional developers, specialist contractors, local builders and trades, furniture manufacturers and retailers, plus housing associations and government bodies. We offer a range of products for the DIY, garden and leisure vehicle industries as well as wood by-products for the biomass industry.

"Our journey began as a panel import business over 30 years ago. Through the decades, Premier Forest Products has evolved to become one of the most comprehensive suppliers of timber products and services in the market. From distributing the largest selection of timber and panel products, to providing timber engineering solutions, bespoke machining and specialist joinery, our goal is to deliver value, choice and quality to our customers in an environmentally responsible way.

We work hard to maintain a culture of respect for our colleagues, customers, suppliers, our environment and communities, delivering our promises responsibly and with integrity.

Ultimately, we aim to cater for all your timber needs, to deliver your vision in timber."

Terry Edgell, Co-Founder & Chief Executive Officer

CUSTOMER SUPPORT & SERVICES

EXCEPTIONAL CUSTOMER SERVICE

Premier Forest built its foundation on the distribution of panel products and timber supplies. Over the decades, we have evolved and developed our skills, expertise and knowledge to provide panel processing, timber engineering, bespoke machining and specialist joinery solutions.

- Global supply network for unlimited range and choice
- Industry leading expertise and technical support
- Nationwide distribution of panel and timber supplies
- Direct-to-site bulk delivery
- Panel processing & fabrication services
- Machining & milling
- Timber engineering solutions
- Joinery solutions
- Timber certification
- Online account management
- Dedicated trade account management
- One-stop timber supplier

NATIONAL DELIVERY

Our in-house fleet of over 50 vehicles deliver timber products across the UK every day, directly to your site, warehouse, yard or workshop.

Consisting of long-based vans, articulated, curtain-side, rigid curtain-side, narrow access and flat beds, as well as Hiab mechanical off-load vehicles, we offer a versatile, flexible service to match your specific needs.

We are committed to providing a safe and efficient service, and with FORS Silver & CLOCS (Construction Logistics & Community Safety) accreditation, our deliveries can meet the strictest site requirements.

SUSTAINABILITY & RENEWABLES

OUR ENVIRONMENTAL IMPACT AND CORPORATE RESPONSIBILITY

We are fully committed to the efficient use of energy and make every effort to minimise the environmental impact of our activities.

TIMBER: A RENEWABLE RESOURCE

While growing, trees absorb carbon dioxide from the atmosphere, capturing carbon which is then stored while being used as a building material. As a natural product, timber needs less energy to be produced compared to concrete or steel.

By its very nature, timber is a renewable resource and can be recycled at the end of its serviceable life.

INNOVATIVE CARBON OFFSETTING

Premier Forest is leading the way in carbon offsetting, thanks to our pioneering CO₂ removal facility - the first of its kind in the UK. At our headquarters in Newport, South Wales, our custom-built biomass gasification system reuses wood waste materials from our panel processing facility. We turn the waste into briquettes which are fed into the biomass system. This produces syngas and biochar. The syngas is used to power the site and contribute to the national grid, while the biochar is sold into agricultural markets as a soil enhancer. This biochar may well be nourishing our trees of the future, demonstrating the cradle -to-cradle cycle in action!

A lifecycle assessment of Premier Forest's production process at Newport concluded that a net amount of 2.96 tonnes of CO₂ is removed and sequestered for every tonne of biochar produced and sold. This presented an opportunity to not only sell biochar but also to generate CO₂ removal certificates (CORCs) to help other businesses offset their carbon emissions.

GOING ELECTRIC

To reduce emissions, we have added electric and hybrid company cars to our fleet and offer free electricity charging at our sites. Electric forklifts operate on sites wherever possible. They not only have zero emissions, but also provide a more ergonomic, efficient and quiet driving experience for our yard teams.

Our sites have now switched to energy-efficient, low emission LED lighting with the additional benefit of creating brighter, safer workplaces.

We have reduced electricity usage and our carbon footprint by installing solar panels at our Head Office in Newport, Duchy Timber and Mon Timber Crumlin, with plans to expand to other branches (where feasible) to ensure we access as much clean, renewable energy as possible.

TIMBER CERTIFICATION

We aim to help our customers meet their environmental commitments by providing a range of products that meet the highest environmental standards and we offer homegrown timber options where possible for a significantly reduced carbon footprint.

All of our businesses are Forest Stewardship Council® (FSC®) Chain of Custody certified to supply forest-based products originating from responsibly managed forests.

Our businesses are also Program for the Endorsement of Forest Certification Schemes (PEFC) Chain of Custody certified to supply forest and tree-based products sourced from sustainably managed forests.

Additional Trademarks License Codes: FSC® C196064, FSC® C102286, FSC® C010576, FSC® C144028, PEFC/16-37-199.

Look for FSC® certified products

The mark of responsible forestry

ISO 14001 ACCREDITATION

Premier Forest has achieved ISO 14001 (Environmental Management System) certification, reflecting our commitment to managing and reducing our impact on the environment.

PANEL PRODUCTS: IMPORTING & DISTRIBUTION

EXPERTISE

Premier Forest Products is one of the UK's leading independent importers and distributors of panel products.

Our extensive product range is expertly sourced world-wide and encompasses timber-based panel products, as well as a wide range of specialist panels. Wholesale, construction, furniture manufacturing, ship-building and even film-sets – our incredibly diverse range of panels are used in a multitude of applications and industries.

SERVICES

- Panel Processing & Fabrication
- Technical Expertise & Support
- Wholesale / Bulk Distribution
- Access to Market-Leading Brands
- Extensive Product Choice in Stock
- Reliable Supply
- FSC certified option available
- PEFC certified option available

PRODUCTS

An unbeatable range of panel products sourced from across the globe:

- Hardwood Plywood
- Softwood Plywood
- Birch Plywoods
- Superva Lightweight Plywood
- Water Repellent Plywood
- Fire Retardant Panels
- Structural Panels
- OSB
- MDF
- Chipboards
- Fibre Boards
- Decorative Panels

"Import and distribution of panel product remains at the core of our business. Our global supply chain consists of carefully selected partners to ensure the broadest choice of panels, with the peace-of-mind that they have been sourced ethically, responsibly and from sustainable forest resource. We hold an extensive stock range across our UK-wide distribution hubs, ready for fast, nationwide delivery to your warehouse, yard or direct-to-site."

James Pickford, Procurement Director, Panel Products

PANEL PROCESSING & FABRICATION

EXPERTISE

Premier Processing & Fabrication in Newport and Decorpanel in Tyne & Wear, are specialists with a trade-wide reputation for technical excellence and service. From simple cut-to-size projects to intricate, complex CNC machining, we can create a cost effective and bespoke solution for our customers.

SERVICES

We provide solutions for a wide range of applications including furniture manufacture, kitchen, bathroom & bedroom fitting, interior & shop-fitting, specialist packaging, as well as engineering and numerous others.

- CNC Machining
- Cutting
- Edge Banding
- Profiling
- Laminating
- Routing
- Tongue & Grooving
- Veneering
- Bonding
- Drilling
- Over-sized Panel Processing
- Painting, Treatments & Preservatives

PRODUCTS

With our panel processing capabilities, we can turn any panel into your project solution. Or if your own work-shop is busy, use us to increase your manufacturing capacity.

- Hardwood & Softwood Plywood
- Made-to-Measure Kitchen, Bathroom & Bedroom Cabinets
- Cabinet Doors
- Packaging Solutions
- Superva Lightweight Plywood
- Fire Retardant Panels
- Structural Panels
- OSB
- MDF
- Chipboards
- Fibre Boards
- Decorative Panels

KITCHEN, BEDROOM & BATHROOM PANELS & CABINETS

EXPERTISE

We manufacture and supply made-to-measure doors, panels, cabinets and worktops for fitted kitchens, bedrooms and bathrooms, suitable for a wide range of residential, commercial and public sector projects. Based in County Durham, our specialist cabinet door and cabinet manufacturing site has a dedicated, skilled, expert team and capabilities in CNC machining and joinery.

SERVICES

- Bespoke cabinet ranges in contemporary and classic styles
- In-house customisation and made to order
- Skilled design and production team
- Latest cabinet manufacturing technology
- Samples, swatches and brochures for your customers
- Cut and edge service
- Cost-effective solutions for projects
- Capacity to supply large-scale projects

PRODUCTS

- Kitchen, bedroom, bathroom cabinets
- Made-to-measure flat slab cabinet doors and panels
- Solid surface worktops
- Precision manufactured in-house
- Comprehensive choice of décors available
- Cabinets supplied fully assembled or flat pack

SUPERVA LIGHTWEIGHT PLYWOOD

SUPERVA

EXPERTISE

Superva lightweight plywood is our range of decorative finishes which offer a tailor-made, unique style to campervan and trailer conversions.

Manufactured to our own specification to the highest standards using an exterior grade lightweight plywood core to save weight and, depending on the finish required, with a High Pressure Laminate (HPL) or Continuous Pressure Laminate (CPL).

A fashion-conscious leisure market demands up-to-the-minute design options, so the Superva range is regularly updated to cater for a wide-range of styles. Working with laminate suppliers from across Europe, the Superva range is complemented with bespoke options.

SERVICES

With decades of expertise in machining, fabrication and the ability to CNC products, our Premier Processing & Fabrication division offers pre-cut kits and precision solutions to make fitting easier and quicker for conversion specialists.

Bespoke options can be sourced for an even wider choice of finishes.

PRODUCT BENEFITS

- Lightweight plywood available in a wide range of designs
- Decorative, aesthetic appearance
- Durable, scratch and impact resistant surface
- Large range of finishes, from classic wood to vibrant colours
- Half the weight of Melamine Faced Chipboard
- Glue bond suitable for laser cutting
- Ultra-low emissions – CARB 2

MACHINING: PREMIER MOULDINGS

EXPERTISE

Premier Forest's state-of-the-art machinery allows us to manufacture every type of timber moulding including cladding profiles, skirtings, architraves, door frames, stair components, door liners and decking in both hardwood and softwood.

Our in-house manufacturing facilities mean that we have complete quality control and the production flexibility to meet both large and small orders alike.

SERVICES

With a full design service and state-of-the-art milling and machining facilities, including profile cutter grinding, we can produce or reproduce any profile in softwood or hardwood.

Our versatile milling production line can cater for large volume production or small, one-off projects.

With facilities designed for precision and high-speed operation, we can produce a huge range of quality, precision-engineered mouldings.

- Bespoke profiles and templates
- Capacity for full scale construction projects
- Bespoke, specialist renovation projects
- Products to meet stringent environmental requirements

PRODUCTS

- Skirtings
- Architraves
- Door Frames & Linings
- Stair Components
- PAR (Planed All Round)
- PSE (Planed Square Edge)
- Torus Mouldings
- Ogee Mouldings
- Bull Nosed Mouldings
- Chamfered Mouldings
- Ovolo Mouldings
- Dado Rails
- Picture Rails
- Handrails
- Cornice
- Architraves
- Oversized or custom mouldings machined to order

MACHINING: PREMIER CLADDINGS

EXPERTISE

Premier Claddings are produced from top quality timber and beautifully machined in the UK by Premier Forest's in-house workshops, in a variety of styles to suit any budget. In addition, we can create bespoke profiles in hardwood and softwood, for your individual design.

SERVICES

Our team of cladding specialists are on-hand to offer advice and guidance on your projects, from start to finish and beyond; we offer after-care advice, making sure that you get the most out of your cladding.

Factory-applied treatments which can prolong the life-service of your cladding and make it more durable are available.

- Bespoke profiles
- Specialist fire treatments
- Coatings, paints and stains

PRODUCTS

• Hardwood & softwood cladding in a wide range of standard profiles:

- Vertical & Horizontal Shadow Gap
- Shiplap
- Tongue & Groove V-joint
- Contemporary Screen
- Featheredge: Rebated & Sawn
- PAR/PSE
- Shingles
- Waney Edge
- Corners & Trims

• Bespoke Cladding Profiles

• Species:

- Homegrown Larch & Cedar
- Imported Western Red Cedar, Canadian Larch, Douglas Fir, European Redwood
- Thermowood®
- Accoya
- Shu Sugi Ban® charred timber

• Supply of all wall battens, fixings and more

FIRE DOORS: DESIGN, SOLUTIONS & MANUFACTURE

EXPERTISE

Our door specialists PWIDF, are experts in the design and manufacture of timber doors, door sets and door solutions.

Specialising in technical fire doors, we can supply you with fully fire and building regulation compliant fire door sets, which are pre-hung and ready to fit on site.

As members of the Guild of Architectural Ironmongers, PWIDF's Registered Architectural Ironmongers can specify and schedule architectural hardware for projects of all sizes. This hardware can be factory fitted onto fully compliant fire door sets, giving you complete peace-of-mind around compliance, functionality and durability.

We deliver across the UK for a broad range of public and private sectors including healthcare, education, secure facilities, commercial, leisure and student accommodation.

SERVICES

With a large range of standard sized doors in stock, we are able to offer bespoke solutions for Q Mark Certified FD30s & FD60s factory pre-hung door sets with various options for sizing, design, vision panels and finishes within quick lead times.

- Custom designs & solutions
- Full compliance with fire and building regulations
- PAS24 fire / security dual scope certification
- Compliant, pre-hung door sets, ready-to-fit on site
- Door and ironmongery scheduling service
- Around 5000 doors in stock, for a fast turnaround
- Installation guidance & advice
- UK-wide delivery

PRODUCTS

Doors are manufactured in accordance with the BM TRADA Q-Mark timber fire door and enhanced security schemes; dual certification is available.

BM TRADA Q-Mark certified Silver plug pre-hung door sets available, ready to achieve Gold plug level at installation.

- Internal doors (loose leaves)
- Fire door kits (door assemblies)
- Pre-hung fire door sets
- Pre-hung fire door sets with all ironmongery fitted
- Mental health doors
- Ironmongery

JOINERY

EXPERTISE

Our in-house team of experienced joiners can help you to achieve your vision in timber. Custom solutions can be developed and scaled to meet the demands of both large commercial contracts, or smaller one-off projects.

SERVICES

We're able to machine and mould softwood and hardwood into the section you need for your project; commercial, residential, new-build or refurbishment – we can help.

- Custom designs
- Ready-to-fit joinery solutions
- Hand-crafted joinery products
- Factory-applied treatments, paints and coatings

PRODUCTS

If what you need is made from wood, we can help! Here is a taste of what we can do:

- Supply of hardwood & softwood timber for joinery projects
- Bespoke staircases & handrails in softwood or hardwood
- Traditional box, sash windows and casement windows
- Triple glazing units
- Doors, frames and liners (external and internal)
- Custom-made furniture
- Acoustic solutions
- Specialist joinery
- Lacquer, paint and specialist coatings

TIMBER ENGINEERING

EXPERTISE

Our Timber Engineering Division designs and manufactures roof trusses, I-beam joists and Posi-joists using specialist modelling software and precision cutting equipment. These products are value-engineered and produced off-site to deliver time and cost-savings to our construction customers.

SERVICES

Our Timber Engineering Division offers a full bespoke design and manufacture service for domestic and commercial roofing and flooring projects. Our bespoke floor platforms are manufactured from premium Steico joists.

- Software-generated 3D modelling
- CNC machining
- Precise quotations
- Comprehensive layout plans
- Full component schedule
- Pre-fabricated roof and floor solutions delivered direct-to-site

PRODUCTS

- Roof Trusses
- I-beam Joists
- Posi-Joists

CONSTRUCTION TIMBER

EXPERTISE

We stock an extensive range of both homegrown and imported premium non-structural timber and structural timber for all kinds of building works, including floors, walls and roofs. Our comprehensive range of options, global supply network and industry expertise ensures our customers have timber to their exact specifications when they need it.

SERVICES

- Treatments for exterior use
- Fire retardant treatments
- FSC certified option available
- PEFC certified option available
- Expert advice for specific applications
- Cut-to-size service

PRODUCTS

- Carcassing
- CLS
- Batten
- Sawn / Planed / Regularised Timber
- Graded Structural Timber
- Ungraded Timber for general building
- Treated Timber for general building

LANDSCAPING TIMBER

EXPERTISE

For decades, Premier Forest Products has been manufacturing and supplying timber products for landscaping. We've built up a vast amount of knowledge over the years and are happy to advise on the most suitable materials for your projects and offer guidance on installation should you need it.

Our gates, planters and furniture are hand-crafted by carpenters at our specialist workshop, from homegrown timber.

Premier Fence Panels are manufactured by our sawmill partner in the heart of the Welsh Valleys, to the same high specification we established over 25 years ago. Like our furniture, Premier Fence Panels use up to 30% more wood than competing products, making them robust, durable and designed to withstand the British weather.

SERVICES

- Customised designs for gates & furniture
- Pressure treatments
- Materials and installation advice
- Full materials package in one delivery

Scan to watch Premier Fence Panels being made

PRODUCTS

- Featheredge Boards
- Fencing Timber for Posts, Rails, Gravel Boards etc.
- Fence Panels
- Entrance, Field and Garden Gates
- Timber and Composite Decking
- Decking Frame Timber
- Sleepers
- Treated PAR/PSE
- Carcassing / Graded Timber
- Outdoor Furniture
- Garden Planters

CARBON OFFSETTING

EXPERTISE

Premier Forest's innovative approach to using wood waste means that nothing goes to waste! A by-product of our biomass gasification process, biochar is a valuable, plant-based material which is used in the agriculture and landscaping sectors for soil improvement. It dramatically increases water and nutrient retention in the soil leading to yield increases. It also reduces nutrient leaching and the need for artificial fertilizers, which are typically energy-intensive to produce.

SERVICE

We offer businesses CO₂ Removal Certificates (CORCs) to support their net-zero goals.

PRODUCTS

- Biochar: a natural renewable soil fertiliser
- 'Ready to Burn' Firewood: kiln-dried logs with low moisture content for fuel efficiency

OUR CREDENTIALS

Over the past 30 years, Premier Forest has aspired to the values of quality, service and expertise. This is borne out through the accreditations and ongoing recognition we have achieved in the timber industry and wider business community.

AWARDS

SUPPORTING OUR COMMUNITIES

PREMIER FOREST SPONSORS EVENTS, COMMUNITY PROJECTS AND CHARITIES; HERE'S A FLAVOUR OF OUR ACTIVITIES!

Premier Forest is piloting a pioneering 'corporate parenting' scheme to sponsor young people with disadvantaged backgrounds, or who are leaving the care system as they reach adulthood. Working collaboratively with Newport City Council, Premier Forest will support young adults with training, employment and mentorship to help improve their future outcomes.

Premier Forest supports apprentices, teaching young people valuable skills on-the-job, across a range of disciplines and with the view to offering long-term employment at the end of their apprenticeship.

City Hospice is a registered charity at the heart of Cardiff providing nursing, medical and end of life care to patients with life limiting illnesses, as well as support for carers and families. Premier Forest sponsors the annual 'Forever Flowers' fundraising event at Cardiff Castle, while Terry Edgell, our co-founder and CEO is a Brand Ambassador for the charity.

KNIFE CRIME MATTERS THE FIGHT AGAINST KNIFE CRIME

Knife Crime Matters is a Community Interest Company which aims to reduce knife crime through awareness, education and collaboration with schools and communities. Mon Timber sponsors the educational tools needed to support their work.

WE SPONSOR A WIDE RANGE OF COMMUNITY SPORTS CLUBS AND ACTIVITIES

Premier Forest contacted Reese Fletcher, the landscape gardener who raises money for vulnerable children at Christmas, after hearing about his amazing project on BBC Breakfast. Reese crafts Christmas trees from leftover wood and sells them, using the profits to buy Christmas presents for young people at risk in his local area. Premier Forest supported Reese's efforts by donating timber to his cause.

Blaina Rugby Football Club

Washington District Youth Amateur Boxing Club

Wayne Spiller at the Welsh Sports & Saloons Car Championship

Mon Timber Crumlin supported Libanus Primary School in Blackwood, south Wales, with a project to design and create a new forest garden for the children, by donating much-needed timber materials.
